Green Bay WI PD Transparency Portal

Last updated: Tue Aug 04 2026

Overview

The Green Bay Police Department (GBPD) is using Flock Automatic License Plate Readers (ALPRs) to help detect and reduce crime in our community. Flock ALPRs are stationary ALPR cameras located within Municipal - Right of Ways and are self-sufficient. They are powered by solar panels and send image information through government-standard encrypted cell signals. The ALPRs capture objective evidence without compromising individual privacy. The GBPD utilizes retroactive searches to solve crimes after they have occurred. These cameras are not used for traffic enforcement. Additionally, GBPD utilizes real-time alerting of hotlist vehicles to capture wanted criminals and missing endangered children and adults. To ensure proper usage and guardrails are in place, the GBPD has our policies and usage statistics available to the public here on the GBPD website at www.gbpolice.org under Inside GBPD.

Community Impact

Data & Usage Summary

Data Retention

The number of days data is retained.

30 days

Total Cameras

Number of LPR and other cameras.

46

Vehicles detected in the last 30 days

Number of unique plate reads over the last 30 days.

460,015

Number of Searches

Total user search sessions over the last 30 days.

472

Hotlists Alerted On

National and statewide hotlist sources.

NCIC, NCMEC Amber Alert, Wisconsin DOJ

Number of Hotlist Hits

Total hotlist hits over the last 30 days.

9,634

Sharing Network Data With

Organizations granted access to Green Bay WI PD data.
